

Semi automatic Table-top Dataweigh™

## TSD-N3<sup>™</sup> series

An ideal combination scale for fixed weight food packages

# An ideal combination scale for fixed weight food packages.

#### Color Touch Screen Operator Interface

- 10.4 inch color touch screen
- User-friendly icons enable easy operation.
- Up to 100 pre-set programs can be memorized.

#### **USB Memory port**

- Data acquisition
- Program update

#### Self-diagnostics

All important system conditions, including voltages, input/output status, software versions, and analog/digital converter can be monitored and diagnosed through the color touch screen operator interface.

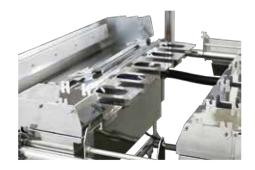

### Low Maintenance

The modular Actuator Unit incorporates the high-performance Yamato Strain Gauge Load Cell with the brushless motor driven system. This modular design makes troubleshooting and maintenance easy and quick.

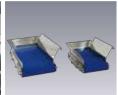

#### Easy cleaning

Reduce downtime for cleaning. Weighing conveyors and a collating conveyor are detachable for quick and easy washdown.

\*The TSD-N3 series can be washed down with non-pressurized hose water.

The TSD-N3 series selects an optimal combination nearest to the target weight and discharges it automatically.

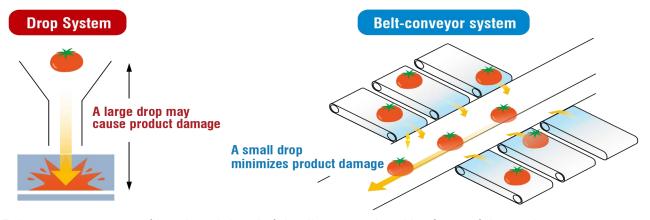

#### Manual work can result in loss of product

The TSD-N3 series increases the number of final packed products from the same amount of materials by reducing weighing loss.

Belt-conveyor system for product discharge

The TSD-N3 series is suitable for weighing delicate and fragile products.

Belt-conveyor system with reduced drop height allows transfer of fragile or sticky products.

- Diced Ham, Sausage, Lobster Tail
- Dried Fruit
- Rice Cracker, Chocolate

- Mushroom, Garlic
- Tomato, Mini tomato, Paprika
- Cucumber, Egg plant, Bunch of Grapes

## Space saving design

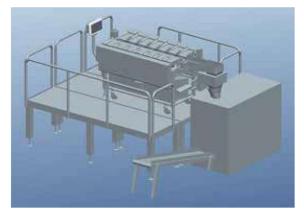

Compact design and standard casters make it easy to move or relocate the equipment.

#### Specifications

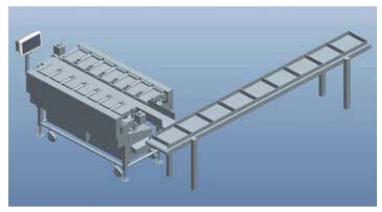

Dust/water protection    Percent   P	- 1		
1,500g per weigh head   20 to 50wpm   20	Model	TSD-N314WS-FP(V)	TSD-N314WL-FP(V)
Sombination accuracy   Sombination   Sombi	Dust/water protection	IP67 for conveyors and main body, IP65 for RCU	
Combination accuracy       0.1g         Range of combination       8g (actually 20g) - 6000g standalone 8g - 18,000g with an external scale         Combination speed       20 to 50wpm       20 to 50wpm         Neigh conveyor size       215(L) × 109(W)mm       305(L) × 139(W)mm         Collating conveyor size       1,515(L) × 153(W)mm (Flat type conveyor) 1,515(L) × 293(W)mm (V type conveyor) 1,725(L) × 293(W)mm (V type conveyor) 1,725(L) × 160(W)mm (V type conveyor) 1,725(L)	Weighing capacity	1,500g per weigh head
